
Human Body Odor Etiology Treatment And Related Factors

human body odour, symmetry and attractiveness - mta - human body odour has been shown to influence female mate choice depending on the immune system, but the question of whether smell could signal general mate quality, as do other cues, was not addressed in previous studies. **1 individual variation in body odour - s craig roberts** - human body odours are emitted from various areas of the body notably from the mouth, the anogenital region, the scalp, and the axillae. in healthy adults, axillary odour appears to be the most distinctive, due to a relatively high concentration of both eccrine and apocrine glands in this area. interestingly, most compounds in fresh apocrine sweat are odourless and these are converted to ... **the major histocompatibility complex and perfumers ...** - keywords: mhc (major histocompatibility complex), human leukocyte antigen, body odor, odor perception, human.
